Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Dear Sir,

I live on a fixed income and I have to have my tracFone for emergencies. I live out in the country and I need to have my tracfone incase I break down on the road while I am out. Phones are far and few between in this area. So, I truly hope that you don't raise the fees. If it is raised, I am afraid that I won't be able to keep my phone.

Thank you,  
Betty J. Reardon

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
